JAMES WISE

Electrical Engineering Student | University of Georgia

wisejames2008@gmail.com | linkedin.com/in/james-m-wise | github.com/jamesmwis

EDUCATION

University of Georgia, College of Engineering

B.S. in Electrical and Electronics Engineering | GPA: 4.00 | Aug 2026 – May 2030 (expected)

Coursework: Intro to ECSE, Informatics I, Physics I, Calculus I

Tift County High School — Valedictorian

Tifton, GA | Aug 2022 – May 2026

PROFESSIONAL EXPERIENCE

Process Control Engineering Intern

Packaging Corporation of America | Valdosta, GA | May – Aug 2026

- Assisted with engineering evaluation and procurement for Westvaco humidity control systems in motor control centers serving the wastewater treatment area.
- Collected and evaluated Wi-Fi access and signal-strength measurements with a Wi-Fi analyzer to support process control and electrical engineering decisions.

Student Researcher

University of Georgia | Tifton, GA | Jan 2025 – May 2026

- Independently designed and conducted three experiments investigating herbicide efficacy and the dioecious nature of Palmer amaranth.
- Collected and analyzed data from 124 experimental trials using Agricultural Research Manager (ARM).

Audio / Visual Technician

Northside Baptist Church | Tifton, GA | Aug 2021 – 2026

- Operated Behringer X32/Mini X32, Midas M32R and Allen & Heath SQ-12 systems for more than 125 services and events.
- Trained six youth team members to independently operate production systems.

ENGINEERING PROJECT

Automated Vision-Guided Targeting System

UGA IEEE | Athens, GA | Aug 2026 – Present

- Developing a Raspberry Pi and OpenCV pipeline for stationary-target detection; targets include 15 FPS and 85% precision under controlled lighting.
- Integrating pan-and-tilt servo control, time-of-flight distance sensing, GPIO relay control and a DC water pump; alignment and trial metrics are planned targets.

SCIENTIFIC RESEARCH

Sex-Ratio Stability in Nine Biotypes of Palmer amaranth

UGA | Tifton, GA | Sep 2024 – Feb 2026

- Designed study across nine biotypes and 432 plants; applied chi-square testing to observed and expected sex ratios.

Herbicide Resistance in Palmer amaranth

Chula, GA | Oct 2022 – Apr 2024

- Designed two studies comparing pre-emergent responses across six populations and post-emergent responses across seven populations.

INVOLVEMENT & HONORS

UGA IEEE First-Year Council (Aug 2026 – Present) | Tift County High School Valedictorian (2026)
2026 Georgia FFA Plant Science Proficiency — State Champion, National Finalist; 2026 Georgia FFA Parliamentary Procedure — State Champion
2026 Packaging Corporation of America Four-Year Scholarship; 2025 Georgia FFA Star in Agriscience; 2024 Georgia Governor’s Honors Program (Agriscience & Biotechnology; Engineering minor)
